

## DISCARDED AS DANGEROUS

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

### Take "Dodson's Liver Tone" Instead!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

They were seeing San Francisco. They had done Chinatown, the inside, a couple of museums and the spaghetti tunnel then in Peacock alley watching the Panopticon parade. Finally one of them had an inspiration. She turned to her companion.

"Do you like art?" she queried.

"Oh, law, yes. Whenever I hit a big city with an artery in it I always blow it."

## Roosevelt Memorial Fund Drivers Appeal to People

A sufficient number of subscriptions to the Roosevelt Memorial Fund have been received to bring the total to \$2,234.50. This is but a small part of the quota of Shelby county, according to O. K. Houck, county chairman, and the campaign is opened to popular subscriptions.

Every effort will be made to have every man, woman and child who was an admirer of Theodore Roosevelt contribute something to the fund. Small subscriptions as well as large ones are earnestly solicited and to the children, particularly should this campaign appeal. The ideals of pure Americanism for which Roosevelt was the ideal that the children of America are being taught and at this time when the people of this nation are being asked to contribute to a fund that will be used to erect a lasting memorial to the former president, parents would do well to urge their children to contribute to the fund from their own savings.

In later years when the children of today have grown up, they can with a degree of pride account the fact that they contributed to the fund with which the great patriot whose memory will ever remain with those who knew him or believed in the high ideals for which he stood.

## ACTUAL WORK OF APPRAISING BEGINS

Recent Sales Will Be Made Criterion of Values To Be Assessed.

While actual work of appraising the value of Shelby county property has been started by the state board of equalization, progress to date is not sufficient to give any information as to the general trend of the appraisal.

Senator A. L. Latham, chairman of the board, and J. A. Robinson, board member, are in the city to start the work of Mr. Robinson will remain in direct charge. He has three assistants with him.

The various portions of the county will be divided and men named in each portion to appraise the value of the farm lands. Recent sales of real estate will be the criterion of value by which all property will be judged, and each separate property will be appraised.

In case any land owner has objection to the appraised value put on his property, he will be permitted to lodge his complaint and to show cause why the valuation is not just, in his estimation.

It is anticipated that the appraisal by the state board, when completed, will serve to lessen the amount of money paid as taxes by a majority of the populace.

Assessments on property, as tabulated for city and county value will ultimately be based on the appraisal of the state board of equalization. If assessors do not place approximately the same value on the land, the reason must be disclosed clearly.

Exceptions will be made of course. While sale prices in 1917 and 1918 will form the basis of valuation, consideration will be given in cases where a piece of property is bought at an exorbitant value paid for, because the purchaser desired to get rid of an undesirable neighbor, or wished to own the land for sentimental reasons, and the like.

## Some Political Snap Shots Just Fired At Random

BY A. J. FORBES.

The candidates of the Citizens' league have taken the lead in every movement made during the present campaign.

The ticket led by Rowlett Paine was the first in the field, and the first to hang its advertising banners throughout the city.

Now the hundreds of thousands of patrons of the film plays have the opportunity to see the Citizens' league and his associates as commissioners face to face in every movie theater in Memphis.

Bursts of enthusiastic applause greeted Mr. Paine's first appearance as a movie actor star, when the Citizens' league "Red Movie" was shown in the downtown picture houses for the first time. The applause broke out when the condensed platform of the Citizens' league was flashed on the screen. "I stand for better government, better schools and law enforcement."

Mr. Paine's one minute in the silent drama was followed by a minute of action play by John E. Edgar, candidate for commissioner of fire and police; Horace Johnson, who will be commissioner of public utilities, grounds and buildings; Maj. Tom Allen, civil engineer, who will be commissioner of streets, bridges and sewers, and Charles R. Shannon, certified public accountant, who will be the next commissioner of accounts, finances and revenues.

The action films of the Citizens' league candidates followed on the screen immediately after a photographic slide asking the audience to vote for J. J. Williams and his associates on the "Memphis ticket."

There was about as much difference between the two forms of advertising as there is between the candidates on the two tickets.

One of the speakers at a Citizens' league rally remarked with reference to the publication of a letter signed, "We will do this, J. J. Williams, candidate for mayor," in connection with Mr. Williams' denial that he ever made any promise to a group of negroes as to privileges to be given them at the city hospital, that Mr. Williams probably signed the letter "in a merely perfunctory manner." Just as he says he signed the oath of citizenship down in Mississippi four years ago.

It begins to look as if our esteemed contemporary, the young and energetic editor of the Press, would have to run for mayor himself. He opines that Rowlett Paine does not suit him; that anyone who would permit E. H. Crump to vote for him under any circumstances cannot be a proper person to become mayor of this city.

On the other hand, he points with holy horror at J. J. Williams' long record of office-holding and office-seeking, and declares just as emphatically that never, never, will he support Mr. Williams for any office that requires law enforcement.

He allows that Mr. Williams is a good enough clerk of the criminal court, but that he showed mighty little consideration for the advice given him by the Press when he retired to retire when he was urged to do so by Mayor Monteverde and the Press. The editor does not mention Max Monteverde, to be sure, but it is understood that both he and Mr. Monteverde gave Mr. Williams some advice that the business men of the city were lining up for the proposed new armory and auditorium gave with six more days ahead for securing members great results are expected by the team captains.
